

“The perfect shot starts long before you pull the trigger”

Sightline by RibPointPro

The innovative training aid that helps you perfect your eye-to-barrel and rib alignment, so your mount becomes repeatable, confident, and accurate - every time you shoot.

Train anywhere. Build instinct.

Sightline gives you instant visual feedback, so you can practise safely at home. Short, focused reps build the muscle memory that turns good form into second nature.

Perfect your mount. Repeat it flawlessly.

Smooth, consistent mounting is the key to accuracy. SightLine shows you when your mount is right - no guesswork, just sharper, more reliable shooting.

Trusted by UK coaches and competitive shooters.

Designed by shooters for shooters, SightLine helps you train smarter and shoot with greater confidence, control, and repeatable accuracy.
